ORIGINAL CONTRIBUTIONS

A Safety Assessment and Accident Prediction Over National Level Highway Using Artificial Neural Network

B. Ghosh · S. Karmakar 665

Determining Passenger Car Unit for E-Rickshaw on Divided Indian Urban Roads

S. Barman · N.S. Devi · S. Biswas 679

A Study on Temporal Variation in Water Spread Area, Volume and Water Balance of Ashtamudi Brackish Wetland: A Ramsar Site in South India

J. Drisiya · K. Shibu 695

Hemp Plant Counting from UAV Images via Detection Transformer by Introducing Query DeNoising

Q. wu · Z. miao · D. sun 711

Sustainable Desorption Study of Chemicals Contributing to COD and Color from Activated Char Prepared from Neem Leaf in Textile Wastewater

H. Patel 727

Quantification of Seismic Resilience of a Hospital Building in High Seismic Prone Region of India

J.C. Sunil · P. Kamatchi 737

Assessing Land Use and Land Cover Changes in Karnataka's Western Ghats Using the GeoML-LULC Framework

D. Anil · S.H. Manjula 749

Delay Analysis of Infrastructure Construction Projects in India

L.P. Devi · Sindhu 763

Simulation-Based Capacity and Delay Analysis of Unsignalized Intersections in Mixed Traffic Conditions

S.S. Pallela · R.B. Kota 773

Flexural Behaviour of Quaternary Blended Reinforced Concrete Beams Under Elevated Temperatures

S.S. Tirumala · V. Kiran Kumar 789

Model-Based Design Approach to Predict Field Performance of Tractor-Implement System

P.S. Singha · A. Kumar 797

Characterization of Pare Rock Mass in North East India using Various Classification systems

P.K. Singh · D. Goswami 815

Groundwater Potential Zonation Using Remote Sensing and GIS Techniques in the Chandrabhaga Watershed, Maharashtra, India

R. Marbate · M. Shinde · S. Raut · S. Mude 829

Impact of Climate Change and Anthropogenic Activities on Shallow Landslide Initiation in Pangthang, East Sikkim: A Geospatial Technology and FAHP-Based Approach

J. Golder · J. Das · G. Bhandari 841

Axial Strength of Short Hot-Rolled Steel Equal Angle Members: Experimental Analysis, Numerical, and Machine Learning Modeling

H.G. Nahushananda Chakravarthy · B. Chandana · S.R. Naganna 863

The Role of Pedestrian Demographics in Shaping the Attitudes and Safety at Uncontrolled Intersections

A. Hyder · S.S.V. Subbarao 879

Assessment of Traffic Sign Visibility in Various Conditions

A.K. Naskar · P. Saha 891

Investigation on Flexural Performance of Perforated Lean Duplex Stainless Steel Rectangular Hollow Beams

A. Varghese · S.S. Ajeesh 907

An Efficient Design of IoT Enables Wireless Sensor Network for Energy Optimization in the Agriculture Sector

S. Nagar · V. Neema · P. Paranjpe · A. Kashiv 929
