

Indian Journal of Systems Engineering and Electronics

Volume 14, Number 2 (2025)

Contents

A Premeditated Technique for Processing Fingerprint Images to Understand Hereditary Relation among Intra- and Inter- Class Family Members Using Ridge Patterns

Karthikeyini C and Rajamani V

88-106

Design of a Novel RF MEMS Dual and Quad Output Switches For Satellite Payload Applications

John Wiselin, B.S. Sreeja, K. Sureshkumar, C. Joshitha V.I. Nandhini, Roshini Shetty, K. Suneri and S. Yazhini

107-121

Characterization of Voltage Rise Issue due to Distributed Solar PV Penetration

Abdullah T. Alshaikh, Thamer Alquthami, Sreerama Kumar R

122-137

An Efficient Multichannel FIR Filter Architecture for FPGA and ASIC Realizations

J. Britto Pari and D. Vaithiyanathan

138-156

Wireless Charging in the Context of Sensor Networks

Maen Tahruri, Hussain A. Attia and Mohamad Hussam Awad

157-169

Network Connectivity Analysis of VANET using Fuzzy Logic Controller

Poonam Rathore and Laxmi Shrivastava

170-181
