

International Journal of Wireless Networks and Communications

Volume 17, Number 2 (2025)

Contents

- Design and Evaluation of QoS Routing Protocols for Ad Hoc Classroom Networks in Digital Education Environments** 83-94
Mahamadou Issoufou Tiado, Ibrahim Ganaou Noura, Col. Harouna Gazobi Souleymane, Chaibou Dan Inna Hussein, Hamani Mounkaila Mahamadou
- Development and Mobility Considerations in MANET Architecture and Protocols** 95-102
Ranvir Singh, Ruchi Aggarwal and Mohan Mudgal
- Latency Management as a Critical Efficiency Parameter for Wireless Network QoS Enhancement 2** 103-110
Ramesh K. and Ishwar Baidari
- Power-Conscious Cache Memory Framework with Adjustable Bandwidth Controller** 111-118
A.Muthumanicckam, R.Sornalatha, L.Vijayprabakaran
- Data Aggregation Techniques for Energy Conservation in Wireless Sensor Networks: A Critical Review** 119-126
Pooja Sharma and Pawan Bhadana
- Performance Evaluation of DWT and FFT-Based PAPR Reduction in Multiuser MIMO-OFDM Systems with Residue Number System** 127-140
A.Vamsidhar, P.Rajesh Kumar, K.Raja Rajeswari, B.Suneetha
- Wireless Body Area Networks for Telemetry: A Framework for Continuous Health Monitoring** 141-150
Patil Kalyanee S., Gagare S.R.
