

International Journal of POWER ENGINEERING

Volume 17 • Number 2 • July-December 2025

Contents

- Study of Influence of Width to Thickness Ratio in Sheet Metals95-111
on Bendability under Ambient and Superimposed
Hydrostatic Pressure
• *Mohammadmehdi Shahzamanian, David Lloyd, Amir Partovi and Peidong Wu*
- Consideration of the Heating of High-Performance Concretes113-127
during Cyclic Tests in the Evaluation of Results
• *Melchior Deutscher*
- Nonuniform Deformation of Cell Structures Owing to Plastic.....129-149
Stress Wave Propagation
• *Kohei Tateyama and Hiroyuki Yamada*
- Characterization of Hermetically Sealed Metallic Feedthroughs151-170
through Injection-Molded Epoxy-Molding Compounds
• *Mehmet Haybat, Thomas Guenther, Romit Kulkarni,
Serhat Sahakalkan, Tobias Grözinger,
Thilo Rothermel, Sascha Weser and André Zimmermann*
- Multi Scale Modelling of Friction Induced Vibrations at the171-190
Example of a Disc Brake System
• *Arn Joerger, Ioannis Spiropoulos, Robert Dannecker and Albert Albers*
