

International Journal of FLUID MECHANICS

Volume 17 • Number 2 • July-December 2025

Contents

- Equivalent Shell Model of Elastic Gridshells Including the79-98
Effect of the Geometric Curvature
• *Maria Luisa Regalo, Stefano Gabriele, Valerio Varano and Ginevra Salerno*
- Effect of Laser Peening with a Microchip Laser on Fatigue Life99-111
in Butt-Welded High-Strength Steel
• *Tomoharu Kato, Yoshihiro Sakino and Yuji Sano*
- Determination of Detection Probability and Localization113-125
Accuracy for a Guided Wave-Based Structural Health
Monitoring System on a Composite Structure
• *Ahmed Bayoumi, Tobias Minten and Inka Mueller*
- Subspace Reduction for Stochastic Planar Elasticity127-139
• *Harri Hakula and Mikael Laaksonen*
- Mechanical Properties and Leak-Tightness of Polymeric Pipe141-154
Adhesive Joints
• *Anna Rudawska, Magd Abdel Wahab, Miroslav Müller and Dana Stančeková*
